MONDAY EVENING, MAR. 4, 1895. A WONDERFUL MOTE.-Last week Charles Johnson, a well-known local hunter, at Marlington, W. Va., got out his Winchestor rifle, after it had been standing for two weeks in a closet with the barrel loaded, and found, upon extracting the cartridge to clean the gun, that the lead of the bullet had all been eaten away, and poured out of the barrel in fine dust. With the dust there came the dried body of a common moth and the moth, and the appearance of the moth from the bullet. He showed the moth | 113 North Royal Street. and the lead dust to several of his friends, and all agreed that everything indicated that the moth had eaten away the lead. One of Mr. Johnson's friends happened to be acquainted with Mr. famous entomologist, and suggested that the moth and lead borings be sent to him for examination and report, This was done, and Thursday the report was received. Mr. Johnson says the moth was a common carpet moth, and that the gun, standing against the wall of the closet, had captured the moth as it fell from some article of clothing, and the moth, being unable to climb out of the smooth gun barrel, bad attacked the softest part it could find, and had gone to work to bore its way out. He stated that it is the second case on re-cord, the first being where a French entomologist had placed several moths in a lead box and they had eaten their way out. He stated that the present was most remarkable, as the moth had reduced nearly an ounce of lead to powder in less than two weeks, and that without food to renew its energies
